

## **CBRE Econometric Advisors Economist Positions**

CBRE Econometric Advisors is looking for Economists (at entry through managing levels). Economists at CBRE generally are based in Boston and engage in two types of activities:

- Forecasting US office, industrial, retail and Apartment markets at the Metropolitan level. These quarterly forecasts of rent, vacancy, cap rates and construction are based on conditional VAR econometric technology and subscribed to by over 200 clients.

- Developing new tools and applications, as well as research reports, using the parent company's expansive proprietary data. Current projects include: examining the impact of Tenant Improvements on contract office rents, determining the lease-up times for different types and sizes of commercial space, examining how the impact of macro factors on Commercial cap rates varies by type of market.

Interested economists should contact: Tim Savage, CBRE Econometric Advisors, 617-912-5265, [tim.savage@cbre.com](mailto:tim.savage@cbre.com) .
