

POSITION SUMMARY

Principal, Economist CORPORATE SHARED SERVICES

COMPANY OVERVIEW

Join the team that powers the global real estate economy - CoreLogic is an innovative, future focused company whose vision is to deliver unique property-level insights that power the global real estate economy.

We are a \$1.95 billion dollar company with approximately 6,000 employees globally serving the financial services, insurance and real estate services industries. We are evolving at a rapid pace and the clients we serve are challenged from every direction, which means we are growing and innovating to help drive their success. Working together, and differentiated by our superior data, analytics and data-enabled solutions, we empower our clients to make smarter business decisions through data-driven insights. We take initiative, are fully accountable, build respect and trust, make transparency a must—and engage, include and collaborate at every turn. We take pride in our work and believe in cultivating a work environment that supports and values our greatest asset: our talented employees.

POSITION SUMMARY

Located within the Office of the Chief Economist, this role will be responsible for forecasts and predictions based on modeling and analysis of multiple economic and human factors, and through the application of economic theories for the real estate, mortgage, valuation and housing finance audiences. This role will forecast, analyze and document economic conditions affecting industry, markets and/or business groups. The role will use various modeling, statistical and mathematical techniques to extract data and insights to prepare and present both internally to executive leadership and externally to the market.

This role works in collaboration with fellow economists and key stakeholders across the data and insights organization, as well as the broader enterprise. The Principal, Economist will develop and influence enterprise-wide strategic initiatives and may represent CoreLogic externally through speaking and industry engagements. Selected candidate will have the ability to represent CoreLogic in a thought leadership capacity.
